

Preparation Instructions for CT Scan Patients

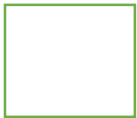

YOU HAVE BEEN SCHEDULED FOR:

Non-Contrast Study

No preparation necessary. Patient can eat, drink, and take all of their medication.

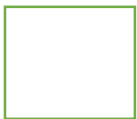

Non-Contrast Patients should arrive at the AUS clinic 10 minutes before your scheduled appointment. This will allow time to fill out any paper work needed before the exam.

IV-Contrast Study

No food for 3 hours prior to the exam. The patient can drink liquids up until 1 hour prior to exam. Patient can arrive 10 minutes before scheduled appointment.

Oral-Contrast Study patients are requested to arrive at the AUS clinic 1 hour before the scheduled appointment. The CT Scan will be performed 20 minutes after you have finished drinking the Oral Contrast.

Lab Work

Patients that are scheduled for **Lab Work** such as ***BUN and Creatinine Labs*** should arrive at the AUS clinic 10 minutes before your appointment.

For any questions, please contact the ***AUS Diagnostic Center at 708-361-8162***
